

OUR TIME WILL COME

I don't know what you look like
I don't know who you are
In my imagination
You're brighter than a star
I wonder where I'll find you
I also wonder when
And if you'll be my lover
Or maybe just a friend

Chorus:

Whoever you are, wherever you are
Our Time Will Come, it'll come
I'm the one you will love
Who you've been dreamin' of
Our time will come
Our time will come
(repeat)

You are my creation
You're all my fantasies
You're custom-made in my mind
Guaranteed to please
The best of all the lovers
I have ever known
Don't let them say you don't exist
I want you for my own

Instrumental

Chorus 2 x

The Story Behind the Song...

I was tired of sappy songs about looking for love so wrote this lyric from a powerful woman's point of view - one who knows there's someone out there just for her.
