

## TURN BACK TIME

Such a sweet beginning  
You and I the perfect pair  
So in love our heads were spinning  
So in love, so much to share  
It was right in the beginning  
We can make it right again  
You once told me love's forever  
That it never had to end, can we ...

Chorus:

Turn back time  
To the way things used to be  
Turn back time  
To the days of you and me  
I don't care what came between us,  
I don't care what might have been  
I believe in second chances  
And I wanna try again

A bittersweet beginning  
You and I what did we know  
We could only think of winning  
We could only see rainbows  
We had a bright beginning  
Full of hope our heads held high  
There was so much good between us  
How could we say goodbye  
Why'd we ever say goodbye?

Chorus

Remember the good, let go of the bad  
The times with you were the best that I've had  
We're taking a chance so please take my hand  
Cuz I know we can. Oh....

Turn back time to the way things used to be  
Turn back time to the days of you and me  
I don't care what came between us  
I don't care what might have been  
Is this our second chance, can you and I ...

Can we turn back tie to the way things used to be  
Turn back time to the days of you and me  
Here we are a little older  
Here we are so much we've learned  
Can the years just disappear  
Can you and I ....  
Turn back time  
Oh, oh, oh, oh  
Turn back time . . . etc.

## **The Story Behind the Song...**

Sometimes real life comes out in a song. I was nostalgic about a former love and wrote these lyrics on a few long walks. Jeremy's beautiful melody and arrangement made it a show stopper every time I performed it.

One night a couple came up to me after one of my shows. They were smiling from ear to ear. "We broke up this past year but we couldn't forget your song. And because of it, we decided to try again. And now," they beamed, "we're back together and getting married!" They even invited me to their wedding! I was quite touched.
